The University Hospital Bonn (Universitätsklinikum Bonn, UKB) is among the leading hospitals in Germany and internationally. It offers maximum medical care and the whole spectrum of modern state-of-the-art medicine. Our currently more than 8,000 employees are involved in health care, research and teaching.

In the Laboratory for Paediatric Cancer Immunology at the Clinic for Paediatric Hematology and Oncology is available the position of a

**Postdoc (m/f/d) (part or fulltime)**

In our department we treat children and adolescents suffering from the entire spectrum of oncological, hematological and immunological diseases. In addition to allogeneic blood stem cell transplantation, the focus is on the translational development of cell and immunotherapeutic strategies. The National and European Reference Center for intra- and extracranial Germ Cell Tumors is also located at the clinic.

The focus of our research program resides in assessment of registered therapies including the modulation of anti-neoplastic immune responses in childhood cancer.

The projects are geared towards preclinical assessments immunotherapy approaches in combination with novel target-therapy agents in childhood cancer and leukemia.

The ideal candidate is a highly motivated, team-oriented individual with strong interest and expertise in the field of immunology and/or a well-founded molecular biology background in signal transduction or epigenetics. Experience in animal models would be a definitive advantage. Documented skills in scientific publication are a prerequisite.

The position is awarded immediately and announced for a period of two years, with the possibility of extension. Salary will be according to the German salary scale TV-L E13.

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university. It aims to increase the proportion of women in areas where women are under-represented and to promote their careers in particular. It therefore urges women with relevant qualifications to apply. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome.

Interested applicants should forward a letter of interest, curriculum vitae and contact information of two references to the director of the department, indicating the reference number 088_2020:
