The Institute of Experimental Immunology (IEI) is part of the Faculty of Medicine of the University of Bonn. The IEI has long-standing, internationally-recognised research expertise on basic and applied aspects of cellular immunology. Currently the IEI has over 50 staff members including three professors, four group leaders and over 30 scientists and PhD students (www.iei-bonn.de).

A position for a postdoctoral scientist (m/f/d) is available at the Institute of Experimental Immunology (IEI) of the Friedrich-Wilhelms-Universität Bonn (Director Prof. Dr. Christian Kurts). The project will start as soon as possible and is determined.

Description:
The position is funded by the DFG SFB1192 that studies the immune mechanisms in chronic glomerulonephritis. The successful applicant will study the role of complement and chemokines in chronic inflammation using sophisticated transgenic, molecular biological and imaging tools. Close interactions exist with the Excellence Cluster ImmunoSensation, the graduate school GRK2168 and the SFBTR57. We offer supportive mentoring and a well-equipped laboratory.

The ideal candidate possesses a keen interest in immunological research questions, is highly motivated and capable of integrating into a young and successful research team.

Your profile:

- PhD in Biology, Biomedicine or similar fields
- Previous experience in vivo research and advanced microscopy are desirable
- Excellent skills for team working and communication (oral and writing) in English
- Experience with in vivo experimental models, flow cytometry, and molecular biology techniques are advantageous

We offer:

- The salary will be according to the German salary scale TV-L (EG 13)
- There is also a possibility to use the day care center
- Supplementary benefits in the public sector (pension plan according to VBL)
- A “Großkundenticket” (subsidized public transport) is available

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university. Its aim is to increase the proportion of women in areas where women are under-represented and to promote their careers in particular. It therefore urges women with relevant qualifications to apply. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome. By agreement and in suitable cases, the apprenticeship can be carried out part-time.

Please send a Letter of Motivation, C.V., certificates and a publication list in one pdf document until 31.03.20 to: iei@uni-bonn.de. Please refer to the application number 120_2020.
